# Lot 9

Houppiers réservés. Recoupe mi-circonférence. Les arbres sont répartis sur 35 hectares. Un érable de 140 cm de circ est présumé ondé. L'abattage, le débardage et le stockage des bois se feront de manière à ne pas abîmer, ni entraver le tracé du sentier éco-pédagogique et la zone d'accueil du public. Sur base du plan d'aménagement adopté par la Commune, celle-ci applique les principes de la circulaire biodiversité du DNF. L'abattage des bois de plus de 100 cm de circonférence à 1m50 est donc suspendu du 01/04 au 30/06.

# Lot 10

Sur base du plan d'aménagement adopté par la Commune, celle-ci applique les principes de la circulaire biodiversité du DNF. L'abattage des bois de plus de 100 cm de circonférence à 1m50 est donc suspendu du 01/04 au 30/06. L'abattage, le débardage et le stockage se feront de manière à ne pas abîmer, ni entraver le tracé du sentier éco-pédagogique et la zone d'accueil du public.

# Lot 11

L'abattage, le débardage et le stockage des bois se feront de manière à ne pas abîmer, ni entraver le tracé du sentier éco-pédagogique et la zone d'accueil du public. Sur base du plan d'aménagement adopté par la Commune, celle-ci applique les principes de la circulaire biodiversité du DNF. L'abattage des bois de plus de 100 cm de circonférence à 1m50 est donc suspendu du 01/04 au 30/06.
